INITIATE Hackathon – Portugal

Energy Communities and Green Energy Transition

| HACKATHON DECLARATIONS

18-19 March 2027

Iscte, Lisbon Campus

01

Personal Data Processing Disclaimer

According to the Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 of April 2016, you are informed that due to the monitoring and control obligations to which the consortium partners of INITIATE, hereinafter, the "Project", are obliged to keep records of the activities carried out, including meetings, training and/or dissemination of Project activities, interviews, among others, in the frame of the Project, aiming at performing the actions required by the control bodies and any other competent authorities of the Project.

With this consent, you are informed that your personal data can be sent to control bodies and any other competent authorities of the Project and to the rest of the consortium partners in order to comply with the control requirements under consortium partners' obligations in the frame of the Project, and will be kept until the end of the Project and for the limited periods of the responsibilities that may result enforceable.

Likewise, we inform that the event which you have been summoned/invited/registered could be filmed and photographed, consortium partners may be entitled to publish these videos and images in its Web Site and social networks, as well as, to send these videos and images to the Media in order to contribute to the dissemination of the Project, and also to the rest of the Partners of the Project to comply with their obligations and to be published in their corresponding web sites and social networks.

By registering for the hackathon, you consent to the following terms:

- I have been informed about the treatment of my data by the Project's consortium partners and I authorize their use.
- I hereby authorize the use of my personal image in order to contribute to the implementation of the Project activities.

You are entitled to exercise your rights of access, rectification, elimination, limitation, opposition, portability and to not be subject to a decision based solely on automated processing by contacting the project organisers at business-analytics-lab@iscte-iul.pt.

02

Intellectual Property and Use of Project Materials

All intellectual property created during the hackathon, including code, designs, prototypes, documentation, and other project outputs, remains with the participating teams. Team members are responsible for agreeing among themselves how they allocate ownership and rights within their team.

By enrolling, participants grant the organisers non-exclusive permission to use selected project materials solely for non-commercial promotion of the hackathon. These materials may include project names, short descriptions, screenshots, demo videos and photographs taken at the event. The organisers may use them in event-related communications, such as website updates, social media posts and event recaps.

This permission excludes source code and confidential information. Ownership of the work remains with the relevant rights holders, who retain the ability to develop, publish or otherwise use it. Any promotional use of a participant's image, likeness or voice is subject to the separate consent declaration on the use of image and voice.

03

Use of AI Tools Disclaimer

When disclosing AI use in your acknowledgements, we recommend sharing:

- AI Technology name and version
- Date/year of use
- The AI Technology's role in your work
- Specific sections where the AI was used in the document
- The author's role in directing or reviewing the work of the AI Technology
- For sensitive, proprietary, or human subject data describe how privacy and compliance requirements were maintained

Document drafting

You should disclose AI used for:

- Text generation: AI generates or substantially rephrases text for the manuscript; creates first drafts of standard sections (e.g., acknowledgments); converts notes or audio into formal academic language
- Translation: AI translates manuscript sections (e.g., abstract, methods) into another language
- Cohesion and organization: AI restructures arguments or document flow; improves readability and flow of paragraphs; assists with transitions; reorganizes sections of the manuscript
- Argument and logic: AI identifies gaps in argument structure; provides feedback on whether results follow from methods; ensures discussion connects to findings
- Tone and audience: AI identifies tone inconsistencies across sections; reframes content for different audiences while preserving meaning

Research methodology

You should disclose AI used for:

Code development

- Programming: AI writes analysis scripts or algorithms
- Software generation: AI develops custom research software or applications
- Data pipeline design: AI builds automated workflows to clean, process, and integrate datasets
- Modeling: AI develops or adapts computational or statistical models for research analysis

Data and analysis

- Qualitative analysis: AI codes interview or textual data; identifies patterns or themes in large datasets
- Quantitative/statistical analysis: AI performs statistical analyses, flags outliers that alter conclusions, interprets results of tests
- Exploratory or advanced analyses: AI generates interpretations of results, highlights relationships or trends in data, or synthesizes findings across datasets

Visuals

You should disclose AI used for:

- Data visualizations: AI generates charts, graphs, plots, heat maps, scatter plots, or statistical figures using a researcher's underlying data
- Research illustrations: AI generates or edits workflow diagrams, conceptual frameworks, visualization of experimental setups, or flowcharts
- Creation of composite images: AI is used to create composite images collected during the course of your research; this should be clearly explained in the image caption or legend. Original images may be requested upon submission
